

National Accreditation Board for Testing and Calibration Laboratories

(A Constituent Board of Quality Council of India)

Ref: NABL / RMP / 2020 / 01

12th Feb 2020

Subject: Promotion of Bhartiya Niradeshak Dravya (BNDs)

Dear Sir,

This is to inform you about the Indian Certified Reference Materials, Bhartiya Niradeshak Dravya (BND^R) produced by NABL accredited Reference Material Producers (RMPs) in collaboration with NPL (NMI of India) and by NPL itself.

The Reference Materials are produced using stringent manufacturing procedures by Indian RMPs following ISO 17034 accreditation standard under the supervision of NPL and therefore BNDs have international equivalence to CRMs produced by any international NMI like NIST, USA.

The details of NABL accredited RMPs are available on NABL website at following link:

<https://nabl-india.org/rmp/accredited-rmp/>

and the list of BNDs is available at the following link:

<http://www.nplindia.in/pdf-files/Available-Bhartiya-Niradeshak-Dravya-list.pdf>

It is further informed that reference materials produced in India are cheaper than the CRMs produced and supplied by foreign manufacturers and are of international equivalence.

It is therefore advised to use CRMs / BNDs produced in India for quality control and testing.

With Kind Regards

(Anita Rani)
PTP/RMP Coordinator
